“ Katrina Freeman AKA (Trina) my little sister was my bestfriend till the end. I remember when we were younger and we would get into all kinds of trouble usually getting (our) my butt whipped by grandma Hill. She never forgot to call me on my Birthday or Holidays and let me know what was happening with the family since I moved to Texas. I will forever miss and cherish the memories of growing up with my little sister Trina. The memory I would like to share with yall is the time Trina and Bennie were brought into the ER @ RMC from a head on collision coming home from the sewing plant they worked at and I was the scariest of all when my Nursing instructor came to me telling me that my 2 little sisters were in the ER they had been in a MVA and they were missing half of their faces. When I ran into the triage Trina sat up looking at me and said " is my car okay? " I busted out crying and laughing at the same time. You see that was the first new car she had ever bought at that time. Fly High Little Sister I'll see you on the other side Love Light and Peace be with us all. The blue candle is a symbol of her beautiful blue eyes.
