“Daddy loved nature! Critters, mammals and birds of the air! He would show me magical things at night using a powerful flashlight by slowly scooping the yard and spotting glistening bright beads such as the night die but what really fascinated me was when he spotted movement of the beads which signified spiders on prowl!!! I still try and see them at night at 54 years old! Another memory was his fascination with the stars! He'd show me there LITTLE DIPPER, BIG DIPPER, and RYAN'S BELT plus many others... this was so amazing as a child...

He loved looking for arrow heads also... The fondest memory when I was very young was riding on his Harley Davidson! I was so little I would sit in front and hold on to the knobs used for filling gas, Vince and Buddy rode just behind him as they were bigger! Vince of course the eldest would be the caboose holding Buddy between himself and daddy!!!

This was so so much fun to us all!!! I really miss those days!!!! I love you daddy!!!!
