“ Arthur and I meet not long after I came to Oxford High School. A teacher asked me one day was I Arthur's brother and told her no I did not know him. When we finally meet we became friends and eventually worked together at Firestone at the mall. Arthur was a great guy and would help anyone he could. Not sure if we are kin or not since we have the last name. When I came to Alabama did not know there were so many Shierling living in this area.
