Big Momma was very active in her children and grandchildren's lives, never

missing an activity they may have had. She was a mother to many and affectionately known as Momma Dill.

She was quoted as saying, “Legacies that you leave behind are the memories that will carry on with us for the rest of our lives. Don’t take the small things for granted, cherish those who cherish you. Love hard and forgive often because at the end of the day family is the most important thing life gives you.”

“ *Bev was my mother in law. But more than that, she was my friend. We laughed. We argued. When I needed it, she put me in my place. She took up for me. Most of the time I didn't even deserve it! She bragged on me like I was one of her own. I have so many great memories with her. Card games. Yahtzee games. Coffee around the kitchen table. Linda getting so mad at her when she almost always took my side. She will be missed greatly. Rest In peace bigmamma.*

“Mrs Dill was such a treasure and a blessing to me. I'm so proud to have been her CNA and blessed to have her teach me valuable life and medical lessons during my time with her. Forever I will remember 2 pink in coffee every morning (which I always made sure her bag was full just in case I was off and she needed it) Her cereal and grapes at lunch. I don't think I can ever drink a Coke Zero again bc she knew I always brought her one and even brought more and stashed in her cubbie so I knew she had one for later that day and stocked it for her on my off days. The best memories was while in the shower room and with that one finger in her ear reminding me that her condition is always rinsed last and her kicking me if she thought I forgot lol. Not a mean kick but that momma Dill kick of girl you know this. Fixing her hair was always a treat for me bc that was our beauty time as she would say and if one spot was off point she would say ...now Lynn would you want to be seen like this. Lol. She would also fix my hair if she sent it was out of place just like a momma and always pulling my pants up for me (I had lost weight and needed smaller uniforms lol). She always wanted to share her food and asked me every day if I had ate. I knew even if I hadn't to tell her yes mam I went to lunch. She was always looking out for others and even would say go tend to that and just come back for me. I never failed to tell her she was my priority right now and when her and I were done I would do whatever else needed to be done. She talked daily about her girls that she loves so much. She updated me daily. When my son was hit by a car she called me everyday to check on him and would tell me to keep my head up bc is mommas have to be the strongest. She told me to not let her down and go for my Rn and conquer the world. The most prize words she ever told me was I see myself in you love. You're driven strong and determined with a guarded strong willed heart just like me. I hope she knows just how much that meant to me and how much I look up to her. Everyday I left her room from work we always said love you and see you tomorrow. She will forever be in the hearts of many and touched so many lives. Mrs Dill I will keep being or atleast try to be half the woman you are. I love you momma Dill. Thank you to all the girls for being such a blessing to me as well.

Your mom is one in a million and I see her in all of you. Her most prized possessions were her family. Love you all
