KH

“ I met Chuck through a close friend and always admired him for his intelligence, kindness and insight. I grew to see him as a brother as many of us began to spend time together. Even though I was older than Chuck, he had a very solid maturity about him that was well beyond me. I longed to be like him. All of us lost contact as we started further schooling, families, careers and other interests. I had an affinity for the Burks family through Chuck. His bother and sisters seemed like distant family in some way. I wish Chucks family peace during this time of loss. Please know we feel your pain as many of us loved Chuck too.

Miss you already brother Chuck!

PS

“ Sorrowful times. Chuck was a lifetime neighbor with a kind heart and helped me parents as well as anyone else he could help. So sorry for those left behind.
