“ I am her niece ,Renee from her brother Leon. I loved aunt Effie dearly. I remember her sewing me and Tanja matching sun dresses one summer when we were about 15
We thought we were models! Lol. She always greeted me with" hey nae" and gave me a big aunt Effie hug! She came one summer and we all sit under the tree and cut off corn all day that 4th of July! She made a frozen fruit cake that year for all of us and it was wonderful on that hot July day! I was blessed to have her as my aunt.
Time and years separated the visits but she and I still talked on the phone as well as my mom until they both got unable to talk to each other because of their shortness of breath and hearing and my mom lost her speech in a stroke.
She was my last surviving family on my daddy's side and I think whete dod all those years and good times go??? Fly high aunt Effie,give daddy a big hug and kiss for me in heaven!
