Jennifer was born in Fort McClellan, AL at Noble Army Hospital on August 18, 1979. She spent her childhood living in multiple states in the US including: Alabama, Kentucky, Texas, Washington, and spent time internationally in Germany. While in her younger years, she enjoyed hanging out with her friends playing soccer and being mischievous. She obtained her GED and completed some courses at Gadsden State Community College. Later in life

she was employed by General Dynamics in Anniston, AL where she worked for many years along working at City Market in Pell City on weekends, while raising her two daughters. Jennifer enjoyed spending her time at Logan Martin Lake where at one point she had a camper, pontoon boat, wave runner, and bass boat. She enjoyed fishing with a rod and reel but she preferred jug fishing. Jennifer also enjoyed riding four wheelers with her friends and family. In 2016 she had a life alternating car wreck where she eventually beat the odds stacked against her. The accident left her disabled but she did not let that stop her with enjoying her life. She was always very determined to overcome any obstacles faced her way including walking, driving, and day to day chores. Jennifer focused her time towards being with family, watching her favorite shows on Netflix, and the many plants she grew and cared for. She was a passionate mother and grandmother she got joy from spending time with and caring for her granddaughter and daughters. She will be loved and missed for an eternity.

“ Quite a few great laughs and memories were made on and off the clock, I worked with bouncy at Sonny's, i remember asking her "how come they call you bouncy?" As She was getting food out of the window sliding a couple to me looked over her right shoulder and told me grab the kitchen chert and said with that smile we all will forever miss and said come on and you'll see! She was awesome at what she did and she was right I followed her all over the place, clocking out a few weeks after I had started she told me I was doing a great job and invited me to go four wheeling with her and some of her friends, I learned today that my giddy happy go lucky four wheeling work sister and cherished dear friend was no longer with us, my heart dropped , forever I have the memories of a friendship that was always as bright as her smile the best place I have ever worked and made the best of friends with her and her girls when they were younger will hold a very special place not only my mind but in every bright and bouncy sky and the sunsets of Gold forever you will be missed, thought of and your smile & seen and heard , u fly high angel Lady and know you are forever loved..... My condolences to her girls and her family <3
