Death Can Be Beautiful
by Addie Williams & Katie Fairchild

Death can be beautiful - when it gives release from suffering and pain. Death can be beautiful when it magnifies love through the comfort, the compassion and sympathy of friends and relatives. Death can be beautiful when it binds those yet living more closely together, when it revives memories of a life which in its totality displayed a richness of texture and a strength of design in which the selflessness, tenderness compassion and generosity were merged. Death can be beautiful when in coming it opens the doors of life again - a life revealed in God's beyond and evermore. Death can be a gift, a reward, a promise fulfilled, the essence of God's love. The sorrow itself, that trails the wake of death, is a quality and measure of love that is creative in that it requires us to re-examine the values we hold. It causes us to question the validity of our lives, it opens our hearts to renewed appreciation of those whom we still have to love and underscores the possibility of unpredictable loss.
