“ Larry grew up with our family, he was so much more than a friend he was a member of the family. He and my late brother Billy Joe were almost always hanging out, running around, having fun and getting into trouble lol. My first and most memorable, favorite memories of Larry was him being scared of our little chihuahua Tiny and his funny laugh. Right after I got my pool table in 97 I remember him and his family and Billy joe and his family coming over. We'd stay up till 3AM playing pool and listening to music we always had a lot of fun. I know that Larry is missed by everyone who knew and loved him. I can just imagine that he's been fishing with cuz(my brother) every day since he's been in heaven and they're having a blast hanging out again. We love and miss you Larry, please don't forget us cause we'll never forget you.
