“ I don't even know where to begin. This still feels like a nightmare.

*Rita, I will remember you forever.*

*Our friendship began by love we both have for animals. I remember meeting you in a canine cancer group because we both were dealing with losses of our Pets. You had just lost Chloe and I had just lost Diamond. We would talk for hours about our babies. The ones that passed and the ones living. We'd send text messages to each other and pictures of our babies talking about what we're doing that day or things that were to come. I'd tell you/show you the pets that I pet sit for and you always loved seeing the new babies. You'd always ask about my girls and I'd always ask about your babies. We just became so close. It was so nice to have a close friend who finally understood how much my animals mean to me and not think I'm crazy lol tho I know I am. You also showed me so much compassion about my health dealing with rheumatoid arthritis. You'd always tell me I was so young to have this horrible disease and how much you hated that for me. I would tell you that the disease took a lot from me, but I loved to paint. I loved sending little surprises to you that always made my day I remember times Billy would take videos to show me your expressions when you opened your gifts or you'd call and tell me you received my gift and I shouldn't have done that but you loved it. I know one thing that definitely held close to your Heart was the blanket I sent you. I had to be so sneaky about those pictures going on your Facebook like a creeper lol. I think about the time I told you about a man ( Sonny) at the time I didn't know him but he was riding a scooter down the street going to the park with his grandson had his pitbull running behind him name Nala. I quickly fell in love with her and made friends with him over her and would show her to you all the time. Nala reminded me of your Smiley. I loved your Smiley girl. I was so excited I felt like I had my own smiley girl through Nala. I know you get to see all the babies now and you're even getting to meet mine ❤️☐. Gone too soon but God has you. There's so many memories I hold close that you've given me. I can go on and on and*

*on about them. Thank you for being such a great friend over the years and I will miss you so much my dear friend Rita! 🤍🟡💜💙🐾*

“ Rita,

*Although we never had the chance to meet in person, your journey touched my life in a way you'll never know. As a parent caring for my own 2-year-old with kidney failure, I often found strength and hope in watching you face each day with courage. You reminded me that even through unimaginable challenges, it's possible to keep fighting and to inspire others simply by living with resilience.*

*Thank you for being a light to so many, including me. Your story gave me hope on some of my hardest days, and I will always be grateful for that. My heart is with your family and everyone who loved you. Your legacy will continue to encourage those of us walking a similar path.*
