“ Susie you are the first person to make me an Aunt. I've enjoyed watching you, your children and grandchildren have a ball together. A family that was also great friends. I loved the way you would call Michael brother and he would call you sis. It has hurt me terribly to let you go, but you left me with so many happy memories. I'll miss your weather reports, the stories about your grandkids, the calls keeping me updated on the Bama games. You getting in a tiff if they didn't show a Braves game.
My heart reaches out to all those who love you and will miss you Susie.

“ I remember the days we had so much fun getting into trouble and sneaking around doing things that we were not suppose to have done. I wish that I had been able to come and see you again but I will see you in heaven. Love you Susan.
