“ Tammy was like a sister to me. We came into the family around the same time. We were friends and family. We raised our kids together. We along with Neal and Jim use to stay up late playing cards. Tammy loved having a bbq at my house.she was there for me when u had open heart surgery in 2000. She walked the floor with me cause I couldn't sleep. Tammy was the best. I am going to miss her so much..
